DAN Becomes NAUI's Official Dive Accident Insurance Provider

[DAN](#) and [NAUI](#) are pleased to announce their alliance to work together for the greater good of diver safety. Effective immediately, DAN is the official dive accident insurance provider for [NAUI Worldwide](#). NAUI has discontinued its Dive & Travel Insurance Program and is endorsing the Membership and Dive Accident Insurance programs offered by DAN.

Divers currently carrying [NAUI's Dive & Travel Insurance](#) will be notified of the change as their policies come due for renewal, and they will be offered the opportunity to join DAN. In addition, NAUI dive centers and instructors will be provided materials on DAN and its programs, including the DAN Student Membership Program...

"DAN has always been dedicated solely to divers and diver safety," says Dan Orr, President and CEO of Divers Alert Network, "and our record certainly speaks for itself. Yet no matter how much we've been able to contribute in the past, we are always looking for ways to provide more. When we first developed the idea of working directly with the training agencies, it was with the intent to increase the network of resources for divers, as well as the commitment of the dive industry to safety practices. We are delighted NAUI has made this public commitment with us, and we are proud to call them our ally in this continuing directive."

Founded in 1959, NAUI Worldwide is the second-largest diver certifying organization in the world, whose members offer a full range of training programs from Skin Diver through Instructor Course Director, with dozens of specialty courses including Nitrox and Technical diving. Tens of thousands of NAUI member instructors, dive businesses, resorts, and service centers are located in countries throughout the world.

Divers Alert Network (DAN) is a 501(c)(3) non-profit medical and research organization dedicated to the safety and health of recreational scuba divers and is associated with Duke University Medical Center. Founded in 1980, DAN has served as a lifeline for the scuba industry by operating the only 24-hour diving emergency hotline, a lifesaving service for injured divers. Additionally, DAN operates a diving medical information hotline, conducts vital diving medical research, and develops and provides a number of first-aid and continuing education programs for everyone from beginning divers to medical professionals.
